**[PROPOSED] SCHEDULING ORDER**

Case No. 2:24-cv-00587-TC-JCB

Judge: Hon. Tena Campbell

Judge: Hon. Jared C. Bennett

Under Fed. R. Civ. P. 16(b), Judge Campbell’s Patent Rule 2(A), Local Patent Rule 1.2(b)(1), and the Court’s Civil Case Scheduling requirements found at the following webpage: <https://www.utsd.uscourts.gov/civil-case-scheduling>, Plaintiff HydraFacial LLC, formerly known as Edge Systems LLC (“Plaintiff”) proposes the below schedule. The parties met and conferred on a proposed scheduling order on May 16, 2025. As Defendant has not yet responded to the Complaint, Dkt. 1, the below schedule includes a date for Defendant to respond to the Complaint. The deadlines ultimately entered by the Court may not be modified without a court order consistent with Fed. R. Civ. P. 16(b)(4) and DUCivR 83-5. Plaintiff is directed to file a proposed Post-Claim Construction Scheduling Order with the remaining case deadlines within 14 days of the Court entering a ruling on claim construction. The Court will then set trial deadlines in the Post-Claim Construction Scheduling Order or through a case management conference.

## **II. PROTECTIVE ORDER**

The parties anticipate the case will involve the disclosure of information, documents, or other materials that will be designated as confidential.	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
--	---	-----------------------------

If the case will involve the disclosure of information, documents, or other materials that will be designated as CONFIDENTIAL, then good cause exists for the court to enter the court's Standard Protective Order (SPO) under DUCivR 26-2:

Disclosure and discovery activity in this action are likely to involve production of confidential, proprietary, or private information for which special protection from public disclosure and from use for any purpose other than prosecuting this litigation may be warranted. In particular, confidential financial information, technical information, business records, source code, and other privileged or otherwise confidential documents may be produced.

The parties will stipulate to their own Protective Order and raise any disputed issues on the Protective Order with the Court, if needed.

If a protective order is needed and the parties **are not** using the court's SPO, then the court's SPO, in effect under DUCivR 26-2, will govern until a different protective order—proposed by the parties via motion under DUCivR 7-1(a)(4)(D)—is adopted by the court.

The parties' proposed protective order should identify a process to resolve all claims of waiver of attorney-client privilege or work-product protection, whether or not the information, documents, or other materials will be designated as CONFIDENTIAL or ATTORNEYS' EYES ONLY, and this process must be included in the proposed protective order under Fed. R. Evid. 502(d):

The parties will stipulate to this process at the time that the Protective Order is filed.

If the parties do not anticipate the case will involve the disclosure of information, documents, or the materials that will be designated as CONFIDENTIAL, the parties still should identify, in the space below, a process to resolve all claims of waiver of attorney-client privilege or work-product protection, whether or not the information, documents, or other materials will be designated as CONFIDENTIAL or ATTORNEYS' EYES ONLY, and this process must also be included in the proposed Scheduling Order: N/A
